CloudEdge

Fully Managed Pre-built Cloud Foundation Platform

Highly automated, fully secure, and compliant cloud platform-as-a-service enabling 10x faster cloud deployment.

With CloudEdge, focus on your core business while we manage your Infrastructure and DevOps challenges. As a prefabricated self-service cloud automation platform, CloudEdge minimizes the complexities and cost of implementing your cloud infrastructure.

DataEdge

Data Analytics & AI Engineering Platform

Elevating businesses with the power of insight-driven decision making

Derive meaningful insights from disparate data sources in a safe and compliant environment with DataEdge, our highly modular, scalable, and API-driven data analytics platform. The no-code platform can be easily deployed in hours and automate the complete process from ingestion to curation and discovery, and from analytics to modernization.

The advanced analytics solutions (AI/ML) of the platform makes it a one-stop solution that manages the entire gamut of data management and analytics activities.

Neutral Zone

Fully Secure & Compliant Data Collaboration Platform

Data collaboration made safe and simple

Drive smooth data sharing and collaboration with zero risk of IP leaks using our fully secure and HITRUST certified data collaboration platform.

By employing end-to-end data governance, eliminate the risks surrounding privacy, easily collaborate and get the most out of your data assets while upholding compliance and security standards.

Cloud Transformation Services

Drive innovation and cloud excellence with production-ready cloud foundation accelerators

Leverage our battle-tested, production-grade Infrastructure-as-Code (IaC) accelerators for best-practices architecture, automated cloud operations, and optimized spends. Get access to the entire production-ready Infrastructure-as-Code (IaC) accelerators written in Python, Terraform, Go, and Bash from our IaC library.

Infrastructure Code Modules

Accelerate your cloud transformation with pre-built IaC Modules

- Save 75% of Your Time
- Optimize Costs by 70%
- Keep Your Code Innovation-ready
- Automate Redundant Tasks
- Adieu to Code Development
- Secure & HITRUST Compliant
- Reuse Codes to Suit Your Needs
- Maintain Consistency

Cloud Operations

Best-in-class expertise to manage your existing cloud operations, enabling agility, availability, and accelerated business outcomes.

Top-notch Cloud Managed Services for your private, public, and hybrid clouds

- Faster Cloud Deployment
- Cloud Security & Compliance
- Cloud Cost Optimization
- Cloud Monitoring & Reporting
- Back-up and Disaster Recovery
- Infrastructure Setup and Management
- Automation and DevOps
- Cloud Migration
